Dear Sir:

It has come to the attention of this office that you are drilling a well in Section 3, Township 8 South, Range 20 East, SLM, Uintah County.

Rules and Regulations of the Oil and Gas Conservation Commission became effective September 29, 1955. Under these rules anyone drilling for oil and/or gas must file a notice of intention to drill and have said notice approved by this office before commencement of drilling operations except as provided for under Rule A-3, General Rules and Regulations and Rules of Practice and Procedure, Utah Oil and Gas Conservation Commission.

It is our understanding that your notice of intention to drill said well was filed with and approved by the Geological Survey prior to September 29, 1955. Will you please notify this office if such assumption is correct and will you also please send us a copy of all reports filed with the United States Geological Survey as of this date and in the future.

Yours very truly,

HERBERT F SMART
COMMISSIONER

Attention: Herbert F. Smart,
Commissioner

Dear Sirs:

I just received your letter of November 22, which was forwarded to me here by my bookkeeper at 3366 S. Broadway, Englewood, Colorado. How it reached me is a mystery, since it was addressed to Englewood, California. My permanent address is 3366 S. Broadway, Englewood, Colorado, but my temporary address is Ute Motel, Vernal, Utah.

My Notice of Intention to Drill was filed with and approved by the Geological Survey on September 28, 1955.

I am enclosing copy of Notice of Intention to Drill, and copy of Lessee's Monthly Report of Operations for months of October and November, 1955.

Yours very truly,

Chas. M. Jameson

Sec. and ¼ of ¼	Twp.	Range	Well No.	Days Produced	Barrels of Oil	Gravity	Cu. Ft. of Gas (In thousands)	Gallons of Gasoline Recovered	Barrels of Water (If none, so state)	Remarks (If drilling, depth; if shut down, cause; date and result of test for gasoline content of gas)
Center of NW-NE-NE Sec. 3	8 S	20 E	2							Had 10 feet of gas sand, 1140 - 1150. After being open a couple of days, it tested 606,000 cubic feet. An analysis showed good quality of gas. Shut-in pressure 125 lbs. On account of caving hole, agitated by the gas, I had to run a string of 5-1/2" pipe to stop repeated blow-outs so I could drill by the gas sand. Got the gas under control, ready to start underdigging and carrying the 5-1/2" casing. Depth at Dec. 31, 1955, 1,155 feet. P.S. I failed to mention in my November report that I ran 710 feet of 8-5/8" casing temporarily as a cave string.

NOTE.—There were runs or sales of oil; M cu. ft. of gas sold; runs or sales of gasoline during the month. (Write "no" where applicable.)

NOTE.—Report on this form is required for each calendar month, regardless of the status of operations, and must be filed in duplicate with the supervisor by the 6th of the succeeding month, unless otherwise directed by the supervisor.

95	180	85	shale	1150	1585	435	shale

HISTORY OF WELL (cont'd on back page)

After leaving the gas well open for 4 months, it had an estimated open flow of 300,000. The well is not considered a commercial well. However, we are leaving the casing in the hole until additional test wells are drilled in the area to determine whether or not we might have commercial gas in the area.

(if additional space is needed use back of page or attach separate sheet)

Vernal, Utah
January 27, 1957

Mr. Oleon B. Feight, Secretary
Oil & Gas Conservation Commission
105 State Capitol
Salt Lake City 14, Utah

Dear Mr. Feight:

I received your letter of January 15 recently.

I am enclosing log of Well No. 2, North Ouray Unit. This is a driller's log, and may not be accurate in detail, except the location of the gas sand. Since Gulf Oil Corp. had a geologist checking the formation, we depended on him to log and identify the siltstone and various sands below the gas sand, all of which were dry but had specks of dead oil. There were no shows of live oil any place - also no water in any of the sands.

Since the U.S.G.S. never asked me for a log, I assume they were furnished a copy by Bill Gillespie, Gulf geologist.

I spent about a month in the Salt Lake hospital under the care of Dr. A. M. Okelberry, orthopedic surgeon. He released me just before Christmas, when I returned to Vernal by ambulance, and was placed under the care of a local dr during my convalescence. X-rays taken a couple of days ago revealed satisfactory healing of both my hip and wrist. However, the doctor says it will be several weeks before I can walk on my leg.

I will let you know when I resume operations on Well No. 3.

Yours very truly,

Chas. M. Jameson

Chas. M. Jameson

Vernal, Utah

Gentlemen:

After checking over the reports submitted on the following wells, we have foudn that our files are incomplete. According to our records, your ElectricLogs has not been filed in accordance with Rule C-5 (a) of our rules and regulations:

Well no. NORTH OURAY UNIT 2
Sec. 3 T. 8 S, R. 20 E
Uintah County, Utah

An Electric Log should have been filed with this Commission within ninety days after the suspension of operations on, abandonment of, or the completion of any wells drilled for the production of oil and gas. Therefore, we are requesting that you furnish us with a copy of all electric logs run on the above-mentioned well.

Your assistance in this matter will be greatly appreciated.

Yours very truly,

Re: Charles M. Jameson
Well No. North Ouray Unit #2
Sec. 3, T. 8 S., R. 20 E.,
Uintah County, Utah

Gentlemen:

On July 15, 1966, this office received your Notice of Intention to Plug and Abandon the above named well. However, as of this date, we have not received the Subsequent Report of Abandonment as required by Rule D-2, General Rules and Regulations.

It would be appreciated if this office could receive said report as soon as possible.

Thank you for your cooperation in this matter.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

SHARON CAMERON
RECORDS CLERK

15. ELEVATIONS (Show whether DF, RT, GR, etc.)
4758' GR.

16. Check Appropriate Box To Indicate Nature of Notice, Report, or Other Data

NOTICE OF INTENTION TO:

TEST WATER SHUT-OFF	[ ]	PULL OR ALTER CASING	[ ]
FRACTURE TREAT	[ ]	MULTIPLE COMPLETE	[ ]
SHOOT OR ACIDIZE	[ ]	ABANDON*	[ ]
REPAIR WELL	[ ]	CHANGE PLANS	[ ]
(Other)			[ ]

SUBSEQUENT REPORT OF:

WATER SHUT-OFF	[ ]	REPAIRING WELL	[ ]
FRACTURE TREATMENT	[ ]	ALTERING CASING	[ ]
SHOOTING OR ACIDIZING	[ ]	ABANDONMENT*	[X]
(Other)			[ ]

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

* Charles M. Jameson was record operator who drilled this well, but USGS certified letter to Mr. Jameson was undeliverable. Accordingly, Gulf, as lessee of record is plugging this well.

Well was plugged as follows:
Pulled 5-1/2" casing
Spotted 25 sacks cement in bottom
Spotted 15 sacks cement in 8-5/8" annulus
Spotted 15 sacks cement in 10-3/4" annulus
Spotted 5 sacks in top of 10-3/4"
Dry Hole Marker Erected
