Mr. Ben Grimes
Plateau Mining Company
P. O. Box 539
Price, Utah 84501

Dear Mr. Grimes:

Re: Modifications for sediment ponds No. 4, 5 and 6, Star Point Mines, Plateau Mining Company, ACT/007/006, Folders No. 2 and 3, Carbon County, Utah

On August 17, 1984, Mr. Thomas Suchoski, Mr. Tom Portle and Mr. Jack Wittman of the Division's staff met with Mr. Geoffrey Saunders of Getty Mining and Mr. Mike Dimetrich of Plateau Mining regarding the automatic dewatering devices proposed for ponds No. 4, 5, 6 and 8 associated with the Star Point Mines. The basic information requested by DOGM staff at the meeting and required for approval of the dewatering devices were: accurate inflow and outflow hydrographs with associated sediment graphs; representative undispersed sediment samples; and, an evaluation of pond detention time.

To date, this information has been received for pond No. 8, but not for the other ponds. The Division would like to have this information as soon as possible. This would allow time for review and approval so that no delay will occur in making the ponds operational following the present cleaning activities.

If you have any questions please call Tom Suchoski or myself.

Sincerely

D. Wayne Hedberg
Permit Supervisor/
Reclamation Hydrologist
