Re: Submittal of Deficiencies of Belina Mines Life of Mine Plans,
Satisfaction of Notice of Noncompliance

Dear Mr. Wright:

This letter serves to acknowledge our receipt of the updated life of mine plans for the Belina Mines complex. These maps were resubmitted to address deficiencies as outlined in BLM's letter of February 6, 1990.

An analysis of the submitted plans was made by a mining engineer from this office. It was determined that the mining plans, as outlined on the enclosed maps, will achieve maximum economic recovery for the Belina Mines using standard industry procedures. The previously approved two-year plan (November 22, 1989) and the currently submitted life of mine maps will satisfy BLM's mine plan requirements at this time.

The enclosed maps are hereby approved and will be added to the approved mining and reclamation plan. This approval is subject to the following conditions:

1. To remain in compliance with respect to mine planning, the approved plans must be followed. Changes can be made only after minor modification approval is given by this office.

2. The detailed two-year mining plan must be updated annually.

3. Three additional copies of the life of mine plans for the Belina Mines must be submitted to this office.

This office has also determined that the outstanding Notice of Noncompliance issued to Valley Camp of Utah has now been satisfied.

If you have any questions regarding this approval, please feel free to contact me or Jeff Cundick at 637-4584.

Sincerely yours,

MARK E. BAILEY

Area Manager
