NOTICE OF TRUSTEE'S SALE

The following described real property will be sold at public auction to the highest bidder without warranty as to title, possession or encumbrances, at the north front door of the Carbon County Courthouse, 120 East Main Street, Price, Utah, on the 8th day of October, 1998, at 12:00 o'clock noon, of said day: Situated in the County of Carbon, State of Utah, more particularly described as follows:

All of Lot 16, WEDGEWOOD ESTATES AMENDED, according to the official plat thereof recorded in Book 3 of Plats at page 152, records of the Carbon County Recorder, State of Utah. Excepting therefrom all minerals below a depth of 400 feet.
Commonly known as: 259 South 700 West, Price, Utah 84501.

The Trust Deed being foreclosed by these non-judicial trust deed foreclosure proceedings is dated December 7, 1995, and was executed by BLAINE R. PECZUH and DENISE PECZUH, husband and wife, as Trustor(s), and in favor of MANUFACTURES TRADERS AND TRUST COMPANY, the present Beneficiary. The present owners are reported to be BLAINE R. PECZUH and DENISE PECZUH, husband and wife.

The purchase price is payable in lawful money of the United States of America.
DATED the 2nd day of September, 1998.

NOTICE FOR COMMENT
ENVIRONMENTAL ASSESSMENT
CANYON FUELS COMPANY COAL EXPLORATION LICENSE AND PLAN
FLAT CANYON AND UPPER HUNTINGTON AREAS

Sanpete and Emery Counties, Utah
(T. 13-14 S., R. 6 E., SLM)

The Manti-La Sal National Forest and Bureau of Land Management (BLM) Price Field Office have prepared an environmental assessment (EA) for a proposal by Canyon Fuel Company to conduct exploratory drilling and seismic line investigations in the vicinity of Flat Canyon and upper Huntington Canyon for the purpose of coal exploration. The area of the proposal lies on National Forest System lands administered by the Manti-La Sal National Forest, Ferron-Price Ranger District.

The preferred alternative is Alternative 2 (Proposed Action). Alternative 2 would allow Canyon Fuel Company to conduct coal exploration activities by drilling 20 drill holes and conducting approximately 10 miles of surface seismic investigations within the Flat Canyon and upper Huntington Canyon areas. Access to the drill holes would be existing Forest Roads, with some temporary road construction. To implement Alternative 2: the Forest Service would consent to, and the BLM would approve, an 18-Hole Exploration License and a 2-Hole Coal Exploration Plan; the Forest Service would approve activities on mixed estates where the mineral rights are in Federal ownership; and the Utah Division of Oil, Gas and Mining would [illegible] le or state surface and mine
