Dear Mr. Harden:

Thank you for the copy of the Utah program, its rules and Code. It will be most helpful to our State program specialists. I have not yet found a computer with the room to explode the files. We should be connected to the LAN someday soon, then these problems will be solved.

I have enclosed the disks for the complete Federal Regulation Notebook, as you requested. In addition, the files of those disks also include the update to the Notebook, which makes it current through December 1991. I am presently awaiting the hard copy of the Notebook from the printer.

The only version I have of P.L. 95-87 is the one reflected in the 1988 publication of the Surface Mining Control and Reclamation Act of 1977. This disk is also enclosed for your use. I am presently working with our solicitors on the long overdue update.

Please let me know if I may be of further assistance.

Sincerely,

Leslie M. Stream
Regulation Analyst
