Attention: Jan

Dear Jan:

Re: P. O. Number: 583875

We spoke several times on the telephone last week concerning methods of analyses and rates. I am shipping three (3) samples which I would like analyzed for:

- Particle size analysis (hydrometer)
- pH, EC (sat paste extract)
- Metals:
 - B (hot water extract)
 - Se (methods of extract and hydride analysis attached)
 - Fe, Mn, Zn, Cu, Pb, Cd, Ni Cr (AB - DPTA extraction)

Please let me know if my request for Selenium hot water extraction is not possible.

Sincerely,

Priscilla Burton
Reclamation Soils Specialist
