Helper, Utah 84526

Glen

Dear Mr. Zumwalt:

Re: Water Sampling, Utah Fuel Company, Skyline Mine, ACT/007/005, Folder #2, Carbon County, Utah

The Division has reviewed your request to reduce sampling frequency to weekly for nitrate and nitrite levels in the Mine No. 3 and sediment pond discharges. This is acceptable to the Division, due to the low levels that have been detected in the last few months. However, the Division will not consider reducing sampling frequency further until after the next longwall move, when all of the old oil is out of the system.

Please feel free to contact me or Susan Linner, Permit Supervisor, if you have any questions.

Sincerely,

Lowell P. Braxton
Administrator
Mineral Resource Development
and Reclamation Program
