Memorandum

To: Regional Director, Office of Surface Mining, Denver, Colorado

From: District Mining Supervisor, Minerals Management Service, Salt Lake City, Utah

Subject: Plateau Mining Company, Star Point Mines, Carbon County, Utah, Underground Mining and Reclamation Plan

The one-volume supplement to the subject plan which was transmitted to this office with your form letter dated March 23, 1982, has been reviewed as requested for completeness and technical adequacy relating to the responsibilities of the Minerals Management Service. We have determined that this volume, which is the reply to the special stipulations of the approved subject plan dated January 21, 1982, is compatible with the requirements of the 30 CFR 211 regulations and for our administration of the associated Federal coal leases. Maximum economic recovery, as determined in the seven-volume approved plan, will not be affected by enforcement of these special stipulations.
