DIV. OIL, GAS & MINING

RE: 5 Year Permit Renewal
Skyline Mines - ACT/007/005 #2

Copy Darron

Dear Mr. Haddock:

Attached are 7 copies of the Skyline Mines 5 Year Permit Submittal required by the Division of Oil, Gas and Mining. Hansen, Allen & Luce, Inc. was asked to deliver the permit renewal package directly to you upon its completion. Specific comments regarding this submittal which we hope will be helpful to the review team have been included within attached form C2. General statements regarding the submittal follow:

- The North Lease Amendment submitted in September of 1996 identified changes between the 1990 and September 1996 submittal. Changes noted herein on attached form C2 generally identify changes between 1990 and 1996, except where changes were submitted in September for the North Lease Amendment. In these cases, the changes noted in form C2 are compared to the North Lease Amendment submitted in September of this year, and not back to the 1990 permit

- Where appropriate, text has been modified to reflect current time and conditions.

- Attempts have been made to clean up and consolidate the permit. We have consolidated all Maps, Plates and Drawings into one designation called "Drawings".

- All figures and drawings previously included within the text have been moved to the back of

all text for the respective "Part". Figure 1.12A for example has been moved to the back of "Part 1".

- In this submittal, text for Parts 1 through 4 has been inserted first, followed by Figures and Drawings. All Exhibits have been moved to a separate volume entitled "1996 Appendices"

- An attempt has been made to eliminate all references to page numbers to help reduce the potential for referencing errors in subsequent submittals.

Please notify either Kieth Zobell or Barry Barnum at Skyline Mines upon completion of your review so that they can advertise the permit renewal as required.

Sincerely,

David E. Hansen, Ph.D., P.E.
Hansen, Allen & Luce, Inc.

Application for Permit Change
Detailed Schedule of Changes to the Permit

Title of Change:

1996 MRP Renewal
December 19, 1996

Page 1 of 1

Permit Number: ACT / 007 / 005

Mine: SKYLINE MINES

Permittee: Coastal States Energy Co.

Provide a detailed listing of all changes to the mining and reclamation plan which will be required as a result of this proposed permit change. Individually list all maps and drawings which are to be added, replaced, or removed from the plan. Include changes of the table of contents, section of the plan, pages, or other information as needed to specifically locate, identify and revise the exiting mining and reclamation plan. **Include page, section and drawing numbers as part of the description.**

DESCRIPTION OF MAP, TEXT, OR MATERIALS TO BE CHANGED

TEXTURAL MODIFICATIONS
