RE: NOV Abatement
Price River Complex
ACT/007/006, Folder Nos. 3 & 7
Carbon County, Utah

Dear Mr. Grimes:

The Division has completed the submittal of August 8, 1983 concerning plans for the area south of ditch #9 for NOV N83-4-5-1. Although the submittal contained some errors, it was found that the proposed ditch and sediment trap are adequately sized to contain the 10-year, 24-hour event. The sediment trap design did not specify any volume for deposited sediment storage and, therefore, Plateau Mining Company will have to monitor and clean the trap frequently to insure that proper function is maintained. Plateau is reminded that 14 copies of the forthcoming surface water and sedimentation control facilities map must be submitted. If you have any questions or comments, please feel free to call.

Sincerely,

RICK SUMMERS
RECLAMATION HYDROLOGIST
