FROM: Lowell P. Braxton, Acting Director
Division of Oil, Gas and Mining *LR*

RE: Procedural Agreement between OGM and SITLA

Attached please find two originals of a Procedural Agreement between the Division of Oil, Gas and Mining and School and Institutional Trust Lands that discusses coordinated actions for dealing with abandoned mine hazards on SITLA land. Hopefully, this agreement will help resolve health and safety issues attendant to abandoned mines on SITLA property.

If you would like to discuss this further before signing, please call me or Mary Ann Wright, Associate Director of Mining, at the Division of Oil, Gas and Mining. If you are OK with signing, please fill in the date you sign as the effective date. Keep one copy for your records, and please return a signed copy to me.
