RE: Permit Modification for the Skyline Mine Waste Rock Pile Access Road, Canyon Fuel Company, LLC, Skyline Mine, ACT/007/005, File#2 Carbon County, Utah

#2

To Whom It May Concern:

Please find enclosed with this letter an application for a minor permit modification to the Skyline Mine M&RP. The purpose of the permit modification is to allow for a change in the access road to the pile and a portion of an undisturbed drainage ditch. It has been necessary to change the elevation of the road approximately three feet to reduce the steepness of the road grade. This change has resulted in a minor modification to the existing diversion ditch that parallels the access road and directs undisturbed runoff around the waste rock pile. To protect the undisturbed drainage ditch, Skyline has placed a short section of culvert within the ditch. Drainage from the outslope of the modified road is directed away from the culverted area through a swale in the road and into the sediment pond. Copies of maps illustrating the modifications to the diversion and supporting hydrologic calculations are enclosed with this submittal.

If you have any questions regarding this submittal, please call either Gary Taylor at (435) 448-2620 or me at (435) 448-2669.

Sincerely,

Chris D. Hansen
