Re: Amended Notice of Intention to Commence Exploratory Drilling
Fish Creek Project
Dugout Creek Project
Carbon County, Utah
EXP/007/012

Dear Mr. Goudge:

Thank your for your June 30, 1980 letter concerning Eureka Energy's amended notice of the proposed exploratory drilling project in Carbon County, Utah. The letter satisfies the notice requirements of Rule M-3(5) of the Utah Mined Land Reclamation Act of 1975, Title 40-8, Utah Code Annotated. All information in the letter relating to the location, size, or nature of the deposit will be held as confidential material by the Division until written permission to release the information is received.

The Division requires no additional information at this time. However, a record of plugging procedures for each hole and general overall reclamation procedures (i.e., grading, stabilization procedures, seed mixtures, rates, methods, and times of seeding) is requested upon termination of operations. In addition, all information relating to water-bearing formations encontered in drilling and logging must be submitted to the Division in writing, and must give the hole location, and if possible, the depth of the water-bearing strata, the formation name, the rate of flow, and if known, the water quality.

Plugging guidelines are available upon request for your reference.

Thank you for your cooperation. When in the area a member of the Division staff will examine the site(s).

Sincerely,

Thomas J. Suchoski
