Mr. Ben Grimes
Plateau Mining Company
P. O. Drawer PMC
Price, Utah 84501

Dear Mr. Grimes:

RE: Permit Renewal, Star Point Mines, ACT/007/006, #2, Carbon County, Utah

Pursuant to our telephone conversation of May 31, 1985, regarding timing of permit renewal, please be advised that the Division of Oil, Gas and Mining (DOGM) will require a minimum of 120 days to accomplish review of a mine plan renewal package. Based upon an expiration date of January 27, 1987, and the 120 day timing, the Division should accordingly receive your complete package no later than September 27, 1986. An earlier submission will be entirely satisfactory. I have enclosed copies of the regulations UMC 788.14, 788.15 and 788.16 that address permit renewal. Please feel free to discuss any questions that you may have.

I also note that a mid-term review of your present permit must be accomplished in 1985. DOGM requires all plans to be established in their required format to accommodate the mid-term review. I have enclosed a draft copy of DOGM's internal procedures that will be used for mid-term review for your reference. Please advise if other information is required.

Sincerely,

Lowell P. Braxton
