Dear Mr. Braxton:

UMC 771.19-(2)-(JW)

817.11-(1)-(PGL)
817.24-(1)-(DD)
817.43-(1)-(TM)

817.101-(1)-(PGL)
UMC 817.124-(1)-(KMM)
UMC 817.126-(2)-(RVS)

Response to stipulation UMC 817.121-(1)-(RVS) was made previously.

PLATEAU

Cyprus-Plateau believes it may be necessary for the Division to request calculations to support design of rip-rap, ditches, ponds, etc., if the Division can show that facilities are of inadequate design, but we disagree with the necessity to include these calculations in the permit document as required by Stipulations 817.43-(1)-(TM), 817.44-(1)-(TM) and 817.45-.47-(3)-(TM). These calculations are voluminous and are backup information only. We do not think the regulations require inclusion of calculations in a permit application and request the Division to evaluate the policy of requiring calculations. Before we send copies of these calculations to update all fourteen PAP sets we would like a decision from the Division in this regard. *

Respectfully,

Ben Grimes
Sr. Environmental Engineer
