TO: Bill Malencik, Henry Sauer
Division of Oil, Gas and Mining

FROM: Bob Lauman, Cyprus Plateau Bob Lauman

DATE: May 19, 1989

SUBJECT: Culvert & Ditch Attachment
Field Inspection (Complete)
of May 18 & 19, 1989

Plateau would agree only to install a culvert agreed capacity (18") at the end of 6B. This will be accomplished by July 19th, 1989 at the end of the work day. The culvert is in lieu of the precious rock lined drop zone. Plateau agrees to create or substitute (7E) a ditch design for 7G by June 19, 1989. Plateau recognizes that all discussions conducted at the current time or field work undertaken are by the approved Mining & Reclammation Plan. Any entertainment of adopting new criteria for ditch design will be contingent upon the events taking place that have been discussed by DOGM and Plateau.

a. Namely, the design criteria calculated by DOGM and submitted to Plateau.

b. Plateau inspects in the field and concurs any proposed changes are attainable.

c. Plateau and DOGM agrees to the modifications as defined or agreed to by DOGM.

d. Any amendment on plan modification shall stipulate the criteria, the required design changes, and shall require DOGM to accept the modification as complete. Any calculations performed by DOGM shall be included in the amendment or petition for modification.

e. Thereafter, if Plateau agrees to modifying the criteria and designs; the company shall have 60 days to perform grading and 90 days to perform construction other than grading.
