RE: **BLM Approved Mine Modification (14th Left-Third Bed), Cyprus-Plateau Mining Company, Starpoint Mines, ACT/007/006, Folder #3, Carbon County, Utah**

Synopsis and Analysis

The BLM approved a modification to the R2P2 on June 28, 1989 that included deleting the southernmost longwall panel planned south of 14th Left and reducing the length and width of the remaining two longwall panels in the Third Bed seam.

There should be no surface effects as a result of this modification.

Recommendation

This modification to the approved R2P2 should be reflected in the mining maps that will be submitted to the Division for the annual report.
