Gentleman:

Enclosed are the monthly discharge reports for the Deer Creek, Trail Mountain, Cottonwood/Wilberg mines and the Hunter Coal Preparation and Blending Facility for the month of September 2012. All parameters were in compliance with UPDES permits except the TSS for Deer Creek Mine Sediment Pond (001A). The 28 mg/L result exceeded the 30 day average limit of 25 mg/L. To correct the problem, the sediment pond is now being cleaned. The cleaning of the pond will allow more sediment time before discharging, which will lower future results.

If you have any questions concerning these reports, please feel free to call Guy Davis at (435) 687-4711.

Sincerely,

Rick M. Poulson
Mine Manager
