The Utah Division of Oil, Gas and Mining (Division) is granting approval and issuing a revised mining permit to Soldier Creek Coal company for the relocation of 1,200 feet of County Road 53 and the addition of 6.4 acres of disturbance at the Soldier Creek Canyon Mine. The Division has determined that the permit application is technically complete and demonstrates compliance with all the "Regulations Pertaining to Surface Effects of Underground Coal Mining Activities, Final Rules of the Utah Board and Division of Oil, Gas and Mining," promulgated under the Utah Coal Mining Reclamation Act (Utah Code Annotated 1953, Section 40-10-1 et seq).

Notice is hereby given to all appropriate agencies and individuals having jurisdiction over, or an interest in the area of the proposed operations, pursuant to R614-300-152 that a revised permit has been issued to said permittee.

This permit authorizes the permittee, Soldier Creek Coal Company, to conduct underground mining activities on the described land within the approved permit area at the Soldier Canyon Mine, situated in the state of Utah, County of Carbon, subject to the terms of the approved Mining and Reclamation Plan, this permit, and all applicable laws and regulations. The disturbance associated with this revision will occur within Soldier Creek Coal Company's current permit area. No new acreage is added to the permit area as a result of this revision.
