INSPECTION REPORT COMMENTS

Permit No. ACT/007/006

Inspection Date 10/4/91

Please number comments to correspond with topics on previous page.

Signs & Markers. Required signs and markers were checked and no problems were noted. The main roads and about half of the disturbed area was covered.

Sediment Ponds & Impoundments. The permittee is currently addressing a Division Order on purported problems on sediment ponds and impoundments.

Diversions. The primary diversions were checked in the field and held up in spite of the September storms.

Sediment Control Measures. Silt fences and straw bales were checked along the upper access road and no problems were noted.

Roads. Roads were well maintained. The road to Gentry Mtn. was in need of maintenance on the steep areas. Hunters have loosen the road surface in the steep areas. The maintenance of the Gentry Mtn roads are not the responsibility of CPMC.

Forest Service has closed many secondary unimproved roads or ways on Gentry Mtn. The roads have been bermed and the roads graded removing all vegetation.
