RE: Andalex Resources, Inc. - "Centennial" Mine - Application for a Permit Revision, Revised Permit Boundary, Task No. 3049

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas & Mining's (UT-DOGM) September 25, 2008, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Revised Permit Boundary, has determined that it proposed to delete 11.92 acres from the permit area. The text and Plates of the approved Permit Application (PAP) for the Dugout Canyon mine, Utah State permit C/007/0039 have been revised to discuss and depict the area to be used by Oso Oil & Gas to drill a gas well over sealed-up longwall gob areas and the construction of a pipeline.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Revised Permit Boundary, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the September 25, 2008, request to the Bureau of Land Management and the USDA Forest Service for their review and comment.

TAKE PRIDE® IN AMERICA

In an electronic submittal dated September 29, 2008, the USDA Forest Service stated it had no comments or concerns with the permit revision application.

The Bureau of Land Management did not provide any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 293-5038.

Sincerely,

Eugene Ott for
