Re: PacifiCorp, Energy West, Extension of time for the 1997 Annual Report.

Attention: Pamela Grubaugh-Littig

The submittal of the 1997 Annual Report is due on March 30, 1998, but at this time the sections of Hydrology and Subsidence have not been completed and will require an extended time frame beyond the submittal deadline as established by the Division.

The Annual Report has been completed in full for all areas as required by the Division, and is now compiled and ready for delivery, (two sets) except for those sections of Hydrology and Subsidence.

In review with the responsible department heads that compile these two areas of the annual report it appears an extension of at least 30 days will be required to complete these sections. Therefore, Energy West requests an extension of 30 days with a commitment to strive for completion before this time frame. This request would be to April 30, 1998.

Thank you for your consideration in this regard, please call Richard Northrup at 687-4822 or Charles Semborski at 687-4720 if there are any concerns related to this request.

Sincerely,

Charles Semborski
Environmental and Geologic Supervisor
