Mr. Lowell Braxton
Division of Oil, Gas & Mining
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Dear Mr. Braxton,

Re: Permit Change Application - Gentry Mountain Air Shaft

Enclosed, please find 3 copies of revised text and maps addressing concerns of the Manti La-Sal National Forest personnel. On May 18, we accompanied Walt Nowak and three other Forest Service personnel to the site of the proposed air shaft to conduct an on-site evaluation of the proposal. During the site visit, several suggestions were made by Forest Service personnel.

The text and maps enclosed are ready to be inserted into our MRP document, and reflect the concerns of the Forest Service and suggestions made during the site visit.

Ken Phippen of the Utah Division of Wildlife Resources also attended the site visit but did not indicate any concerns with the air shaft except that work be conducted after July 5 when elk calving is over.

We are in the process of selecting drillers to complete the work and anticipate a start date of late July, pending permit approval.

When the Division is satisfied, we will send additional copies of the permit change as needed; please advise when additional copies are needed. I am sending a copy to the Forest Service to expedite their review.

Respectfully,

Ben Grimes
Sr. Environmental Engineer
