Dear Mr. Braxton,

Re: Public Road - Division Order DO-92A, Item 3

Division order DO-92A, item 3 directed that we address R645-301-234. In accordance with this order, I received direction from Pam Littig on the procedure as follows.

A public meeting was scheduled for April 28, 1992 at the Days Inn Hotel in Price for 12:00 PM to allow the public to make comment if they felt mining operations by CPMC affects their interests. A copy of the public notice is enclosed.

As per our conversations this morning, no requests by members of the public were received by the deadline. The public meeting is therefore not necessary, this letter serves to document the process has been followed and that no further action from CPMC is necessary.

R645-301-234.400 requires a written finding based on information received at the public hearing within 30 days of the hearing or after any public comment period ends if no hearing is held, as to whether the interests of the public and affected landowners will be protected from the proposed coal mining and reclamation operation. CPMC has always allowed the public to use the roads in the mining area, this practice will continue. I assume the Division will provide the written finding.

If we need to do anything else in this regard, please contact me.

Respectfully,

Ben Grimes
Sr. Environmental Engineer
