Proposed Exploration

The assessment work for this group of claims was completed after August 31st, 1980 and prior to January 1, 1981. At this time no more work is proposed on these claims during this year.

Existing Disturbance

As a matter of record, there are numerous old roads and drill sites on these claims. There are nunerous drill holes from previous exploration. Access is from existing county roads and old claim roads. No new road work proposed at this time.

Proposed Reclamation

At this time, we plan to do more exploratory drilling and assessment of this property during the next assessment year. At that time, if there is any ground disturbance, where practical we will reshape it to the contour of the surrounding ground.
