CHANGE IN FILE STATUS
APPROVAL FORM

DATE January 15, 1988

CURRENT FILE NO. DOE/039/003 & DOE/023/010

RECOMMENDED FILE NO. Closed

COMPANY AND MINE NAME Geodynamics, Inc Various "Azome" Claims

REASON FOR CHANGE IN FILE STATUS

I inspected the above referenced DOE's on October 8, 1987. Both sites were approximately 1/2 acre in size, and had apparently been abandoned as they ~~were~~ regraded flat. Due to the amount of vegetation on the regraded areas, it appears that the sites have been inactive for some time.

Geodynamics Inc. has a Salt Lake City address listed on their original 1979 DOE's, but I have been unable to locate the company in either the phone directory, or in the Department of Business Regulations Files. I do not recommend contacting the company upon promulgation of the new minerals rules.
