Johnny,

I have uploaded all of the data for Castle Gate, Star Point, and Willow Creek from the pipeline into the database. Reports are attached.

Please let me know if you have any questions.

I believe that I have entered all the aforementioned. There is also the missing second quarter B-271 analysis. You will also notice that I have July and September well level data. For some reason I had my head somewhere where the sun doesn't shine and I monitored what I thought was for the fourth quarter that wells on September 26 and 27. It's amazing where I had my head for two days!! I will make the effort to re-check the wells during the fourth quarter if the access is not restricted by inaccessible road conditions.

Download the data.
