Re: Amendment for Addition of
Shop and Storage Containers
Savage Service Corporation
Savage Coal Terminal
C/007/0022

Dear Mr. Christensen:

Enclosed are 3 copies of a proposed amendment for the addition of a shop and storage containers for the Savage Coal Terminal MRP. The amendment is being submitted as an appendix to Chapter 5 of the MRP, along with an updated Surface Facilities Map – Plate 5-2 showing the location of the additions.

Savage Services Corporation is requesting your review and approval of the proposed amendment and updated map. Required C1/C2 Forms are included with this submittal. If you have any questions, or need additional information, please let me know.

Sincerely,

Heath Tanner
Senior Operations Manager

APPLICATION FOR COAL PERMIT PROCESSING

Permit Change ☒ New Permit ☐ Renewal ☐ Exploration ☐ Bond Release ☐ Transfer ☐

Permittee: Savage Services Corporation
Mine: Savage Coal Terminal **Permit Number:** C/007/0022
Title: Addition of Shop and Storage Containers
Description, Include reason for application and timing required to implement:
To clarify structures and update facility map.

Instructions: If you answer yes to any of the first eight questions, this application may require Public Notice publication.

☐ Yes ☒ No 1. Change in the size of the Permit Area? Acres: _____ Disturbed Area: _____ ☐ increase ☐ decrease.
☐ Yes ☒ No 2. Is the application submitted as a result of a Division Order? DO# _____
☐ Yes ☒ No 3. Does the application include operations outside a previously identified Cumulative Hydrologic Impact Area?
☐ Yes ☒ No 4. Does the application include operations in hydrologic basins other than as currently approved?
☐ Yes ☒ No 5. Does the application result from cancellation, reduction or increase of insurance or reclamation bond?
☐ Yes ☒ No 6. Does the application require or include public notice publication?
☐ Yes ☒ No 7. Does the application require or include ownership, control, right-of-entry, or compliance information?
☐ Yes ☒ No 8. Is proposed activity within 100 feet of a public road or cemetery or 300 feet of an occupied dwelling?
☐ Yes ☒ No 9. Is the application submitted as a result of a Violation? NOV # _____
☐ Yes ☒ No 10. Is the application submitted as a result of other laws or regulations or policies?
Explain: _____
☐ Yes ☒ No 11. Does the application affect the surface landowner or change the post mining land use?
☐ Yes ☒ No 12. Does the application require or include underground design or mine sequence and timing? (Modification of R2P2)
☐ Yes ☒ No 13. Does the application require or include collection and reporting of any baseline information?
☐ Yes ☒ No 14. Could the application have any effect on wildlife or vegetation outside the current disturbed area?
☐ Yes ☒ No 15. Does the application require or include soil removal, storage or placement?
☐ Yes ☒ No 16. Does the application require or include vegetation monitoring, removal or revegetation activities?
☒ Yes ☐ No 17. Does the application require or include construction, modification, or removal of surface facilities?
☐ Yes ☒ No 18. Does the application require or include water monitoring, sediment or drainage control measures?
☒ Yes ☐ No 19. Does the application require or include certified designs, maps or calculation?
☐ Yes ☒ No 20. Does the application require or include subsidence control or monitoring?
☒ Yes ☐ No 21. Have reclamation costs for bonding been provided?
☐ Yes ☒ No 22. Does the application involve a perennial stream, a stream buffer zone or discharges to a stream?
☐ Yes ☒ No 23. Does the application affect permits issued by other agencies or permits issued to other entities?
☐ Yes ☒ No 24. Does the application include confidential information and is it clearly marked and separated in the plan?

Please attach three (3) review copies of the application. If the mine is on or adjacent to Forest Service land please submit four (4) copies, thank you. (These numbers include a copy for the Price Field Office)

I hereby certify that I am a responsible official of the applicant and that the information contained in this application is true and correct to the best of my information and belief in all respects with the laws of Utah in reference to commitments, undertakings, and obligations, herein.

APPLICATION FOR COAL PERMIT PROCESSING
Detailed Schedule Of Changes to the Mining And Reclamation Plan

Permittee: Savage Services Corporation
Mine: Savage Coal Terminal
Title: Addition of Shop and Storage Containers
Permit Number: C/007/0022

Provide a detailed listing of all changes to the Mining and Reclamation Plan, which is required as a result of this proposed permit application. Individually list all maps and drawings that are added, replaced, or removed from the plan. Include changes to the table of contents, section of the plan, or other information as needed to specifically locate, identify and revise the existing Mining and Reclamation Plan. Include page, section and drawing number as part of the description.

Appendix 5-6

Addition of Shop and Storage Containers

Project Description

The previous storage area behind the Savage Coal Terminal office building has been modified to provide a more orderly and secure storage area with the addition of 3 portable storage containers and a new metal building to serve as an enclosed mechanic shop. The chain link fence around the previous storage site has also been removed.

Project Details

3 portable steel containers have been placed behind the Savage Coal Terminal office building. Two of the containers are 8' wide by 40' long, and one is 8' wide by 20' long. In addition, a 30' x 40' x10' steel building has been placed to provide a new mechanic shop area. The previous shop area adjacent to the office has been converted to an electrical shop. The metal building has been erected on a previously poured concrete pad with piers. The Surface Facility Map, Plate 5-2 has been updated to show the location of the structures. Bonding cost details are included in this appendix.

Environmental Considerations

The entire project is within the existing disturbed area. There will be no changes to the soils, biology, geology or hydrology (including drainage) as a result of this amendment. Proposed bonding costs are provided in the following section.

Bonding

The 3 steel containers are considered portable, and upon completion of use, will simply be hauled off site; therefore, no demolition costs are associated with them. The following costs are for the demolition of the steel building and concrete for the new shop area. The costs are taken from those in the latest approved bond estimate for the Savage Coal Terminal Permit. The chain link fence is shown as a credit since it has been removed.

Demolition Cost

Item	Unit Cost	Quantity	Cost
Steel Bldg.	0.28/CF	12,000 CF	$ 3,360.00
Concrete	21.00/CY	25.0 CY	525.00
		Sub-Total	$ 3,885.00
Chain Link (Removed)	4.33/LF	240 LF	- 1,039.00
		Total =	$ 2,846.00

Note: The estimated reclamation cost for this site is $2,345,000.00, escalated to 2021. The bond posted for the site is $2,525,000.00, which is $180,000.00 more than required. When the above estimates for the shop building are included, there would still be an excess of $177,154.00 in place for this site.

Summary

The previous outside storage area behind the Savage Coal Terminal office has been modified by removal of the chain link fence and the addition of 3 steel storage containers. In addition, a 30' x 40' x 10' steel building has been erected on a pre-existing concrete pad, to serve as a mechanic shop. Bonding costs for the addition have been provided and show no need for an increase in the bond for this project. The Surface Facility Map, Plate 5-2 has been updated to reflect the changes described herein.
