Subject: Invitation to Attend and Comment on a Joint Subsidence Investigation Team Presentation Involving the Division, USFS, BLM and NIOSH

Dear «SALUTATION»:

You are invited to attend an outreach meeting on current subsidence monitoring methods and emerging technologies on June 26, 2008 at 10:00 am. The meeting will be held at the Division's headquarters Room 1060.

The Division, BLM, USFS and NIOSH are developing a team to assess the viability of the current subsidence monitoring effort and assess the application of existing or emerging technologies. The Subsidence Team is working with the University of Utah and Brigham Young University to determine the feasibility of using new technology to determine the commencement and degree of subsidence.

You are invited to provide comments on existing and emerging technology as well as suggest ways in which subsidence information can be used to:

- Increase safety for underground personnel.
- Provide information to protect or provide for mitigation of renewable resources.
- Maximize economic coal recovery.

If you have any questions, please call me, or Wayne Western at (801) 538-5263.

Sincerely,

Daron R. Haddock
