Name and I.D. No.

* In the opinion of the assessment officer much of the material known to be topsoil was actually snow and that the ground had been essentially frozen prior to the operations in this area. Since road construction was occurring on the property at the time of the violation ~~as~~ with sidecasting of topsoil (portion #4 listed under NOV 82-3-1-2 # 1 of 2) it was felt that the ground was not frozen and that topsoil should have been protected thus the violation was issued. Although all areas addressed in the violation were not addressed by the operator ~~so~~ portion #2 was done. It is difficult to understand how the violation could have been abrogated.
