**FOR IMMEDIATE RELEASE**

### **Utah Mining Association Seeks New President**

The Executive Committee of the Utah Mining Association (UMA) is seeking a new president.

The Utah Mining Association has appointed a search committee and following the conclusion of the current Utah State Legislative Session will begin the process to seek qualified candidates and make recommendations to the UMA Executive Committee for the hiring of the president to lead the mining association.

Utah Mining Association is accepting resumes from qualified applicants for the position of UMA President. This is a full-time, paid position. Qualified applicants should have experience in trade organization administration, experience working with legislators and regulators, office management and convention administration experience. A general knowledge of mining issues is beneficial but not a requirement for application.

UMA will be accepting applications through March 20, 2009. Selected applicants will be contacted for further interviews.

Persons interested in the position of UMA President are requested to send a letter of interest, together with a current resume and salary history to the Utah Mining Association, Attention: Search Committee, 136 South Main Suite 709, Salt Lake City, Utah 84101.

The Utah Mining Association is a non-profit association which has operated continuously since 1915. The Utah Mining Association represents about 30 mining companies and 70 service companies who support the mining industry throughout the state.
