Subject: Approval of Updated Reclamation Surety, Robert Robison, ML982, S/027/0053, Millard County, Utah

Dear Mr. Robison:

On April 13, 2010, the Division received the additional $7000 for the increase of your reclamation surety for the ML 982 Mine, located in Millard County, Utah, bringing the total to $12,000. The surety is now escalated to 2015 at which time it will be re-evaluated. It may also need to be adjusted if there are changes to your Notice of Intention to Commence Small Mining Operations.

The Division will make note of the changes in the surety amount and escalation date on the fact sheet associated with the reclamation contract, but no other changes are required at this time.

Thank you for keeping the reclamation surety current. If you have any questions concerning this letter, please contact John Rogers at (801) 538-5349.

Sincerely,

Paul B. Baker
Minerals Program Manager
