RE: Canyon Fuel Company, LLC - "Dugout Canyon" Mine - Application for a Permit Revision, As-Built Drawings, Task No. 3025

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas & Mining's (UT-DOGM) August 20, 2008, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, As-Built Drawings, has determined that it proposed to add as-built drawings, topsoil stockpile cross-sections associated with the AMV road, the degas pads and topsoil stockpiles for Wells G-18 and G-31, and associated revised reclamation cost estimates to the approved Permit Application Package (PAP) for the Dugout Canyon mine, Utah State permit C/007/0039.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, As-Built Drawings, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the August 20, 2008, request to the Bureau of Land Management and the USDA Forest Service for their review and comment.

TAKE PRIDE® IN AMERICA

In an electronic submittal dated August 20, 2008, the USDA Forest Service stated it had no comments or concerns with the permit revision application.

The Bureau of Land Management did not provide any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 293-5038.

Sincerely,

Eugene O Hay acting for
