Subject: HE Davis Plan of Operations Deficiency Letter

Tom,

Since the meeting with HE Davis in September 2004 the only contact we've had with them was a phone call discussing the cultural resource work to be done by Davis on the HENRY mine. Other than that, I remember no other emails or phone calls (Tom Lloyd knows of none also) from Davis concerning the Chicken Creek West Mine. We are still waiting on the supplement to the Plan of Operations they submitted on March 8, 2004.

Davis submitted a few items addressed in the April 13, 2004 letter at the meeting on September 16, 2004. Please refer to meeting notes letter from Paul Baker. We discussed the deficiencies with Davis at the meeting and asked them for corrections to be submitted in the form of a supplement to the Plan. We have not heard from them since concerning this matter.

The letter I mentioned on the phone to you today detailed, in the same format as the April 13, 2004 letter, the deficiencies in the Henry Plan of Operations submitted on November 1, 2004. It was not, as I had thought, another letter discussing the Chicken Creek West Mine. If you have not received this, let me know so I can send it.

We are looking forward to the complete and detailed supplement on the Chicken Creek West Mine this Friday that they had promised.

I will call or email you as soon as I get it.

Thanks,

Joel Nowak
