Re: Transfer of Two Small Mining Notices, Cactus #1 (S/023/057) and Serendipity #6 (S/023/017) from Sprunger's Minerals to Larry Lehto, S/023/076, Juab County, Utah

Dear Mr. Sprunger:

On February 12, 2001, the Division received two Transfers of Notice of Intention for small mining operations. The transfers are for the Cactus #1 (file number S/023/057) and Serendipity #6 (file number S/023/017) from Sprunger's Minerals to Larry Lehto. The Division could not complete the transfer process until an inspection could be performed of the sites. On October 3, 2001, the Cactus #1 site was inspected. The Division was not able to get to the Serendipity #6; however, we were informed that the project has not changed since the last Division inspection was made at this site.

The Division Director accepted the transfers for these two projects as identified on the transfer forms and made them become effective on November 5, 2001. The fully signed and executed transfers are enclosed for your records.

You are hereby officially released from any further mining and reclamation obligations at the Cactus #1 site and the Serendipity #6 site. Larry Lehto will be the party responsible for continued mining and reclamation of these two projects. Larry Lehto has been assigned a new file number for these projects. Both of the existing files will remain active under Sprunger's Minerals, as there are other projects associated with these files which have not been released, namely: ML 47821 and ML 46956 remain active under file number S/023/057 and Cubical #2 remains active under file number S/023/017. You are still the responsible party for the mining and reclamation of these three projects.

Thank you for your help in processing these transfers. If you have any questions regarding this letter, please contact me at (801) 538-5286 or Tom Munson at 538-5321.

Sincerely,

Joelle Burns for
