Thanks Steve.....

Unless this group is planning on utilizing exclusively privately owned coal reserves, it seems like they would want to invite BLM and/or SITLA (in Utah) to cover the leasing and recovery aspects of the coal resource in their plans. Also, where the surface may not be owned in fee, they might want to discuss their plans with the surface managing agency, whether it be USFS or SITLA or whomever. Maybe that comes later.....??

OSM- In Situ Coal Meeting (Denver,
CO)

Greetings,

As requested during the conference call, I've attached the agenda for the
upcoming OSM in-situ coal processing meeting.

Give me a call if you have any questions or something you'd like me to
follow up on.

Regards,
Steve
