DIV. OF OIL, GAS & MIN

Re: Red Dome Inc.'s pending mining plan proposal

Dear Mr. Haddock;

Enclosed please find a copy of Mr. Lynn Wall's, Wall Engineering, Fillmore, Utah, Site Map, Profiles and Sections. This document was prepared by Mr. Wall following a recent meeting on the Red Dome Mining Claims between Mr. Wall and Mr. Doug Jensen of your Department and perhaps others, and was drafted under the understanding reached during that meeting. I was not able to be present at that meeting. This was prepared in Red Dome Inc.'s continued effort to satisfy the request of your Department to present a Mining Plan for the Red Dome Mining Claims, located in Millard County, Utah.

It is my understanding that with previous information submitted, this Map, Profiles and Sections document essentially satisfies your request of April 12, 2004 and December 2, 2004. I would suggest a meeting in your Salt Lake office in the near future to discuss any remaining issues you feel may need to be addressed. Otherwise I would appreciate a letter or certificate of approval of Red Dome's last submitted Mining Plan with these additions added.

I am informed that your Department recognizes that the same type of materials and mining operation conducted near Kanosh, Utah, by Mr. Gale George on property owned by Mr. Ed Degraffenried is exempt from your regulations as it has been recognized as a sand, gravel and rock aggregate mining operation. Red Dome Inc. has maintained that its mining operations are exempt under the same provisions of the law. Your Department disagreed and Red Dome Inc. has attempted to satisfy your requirements without waiving any claim or defense under the law, including exemption under this provision. Would you please confirm or disavow your Department's recognition of Mr. Gale George's and Mr. Ed Degraffenried's exemption.

Thank you for your continued effort to arrive at a mutually satisfactory resolution.

Sincerely yours,

Dexter L. Anderson,
cc. Sherry K. Hirst

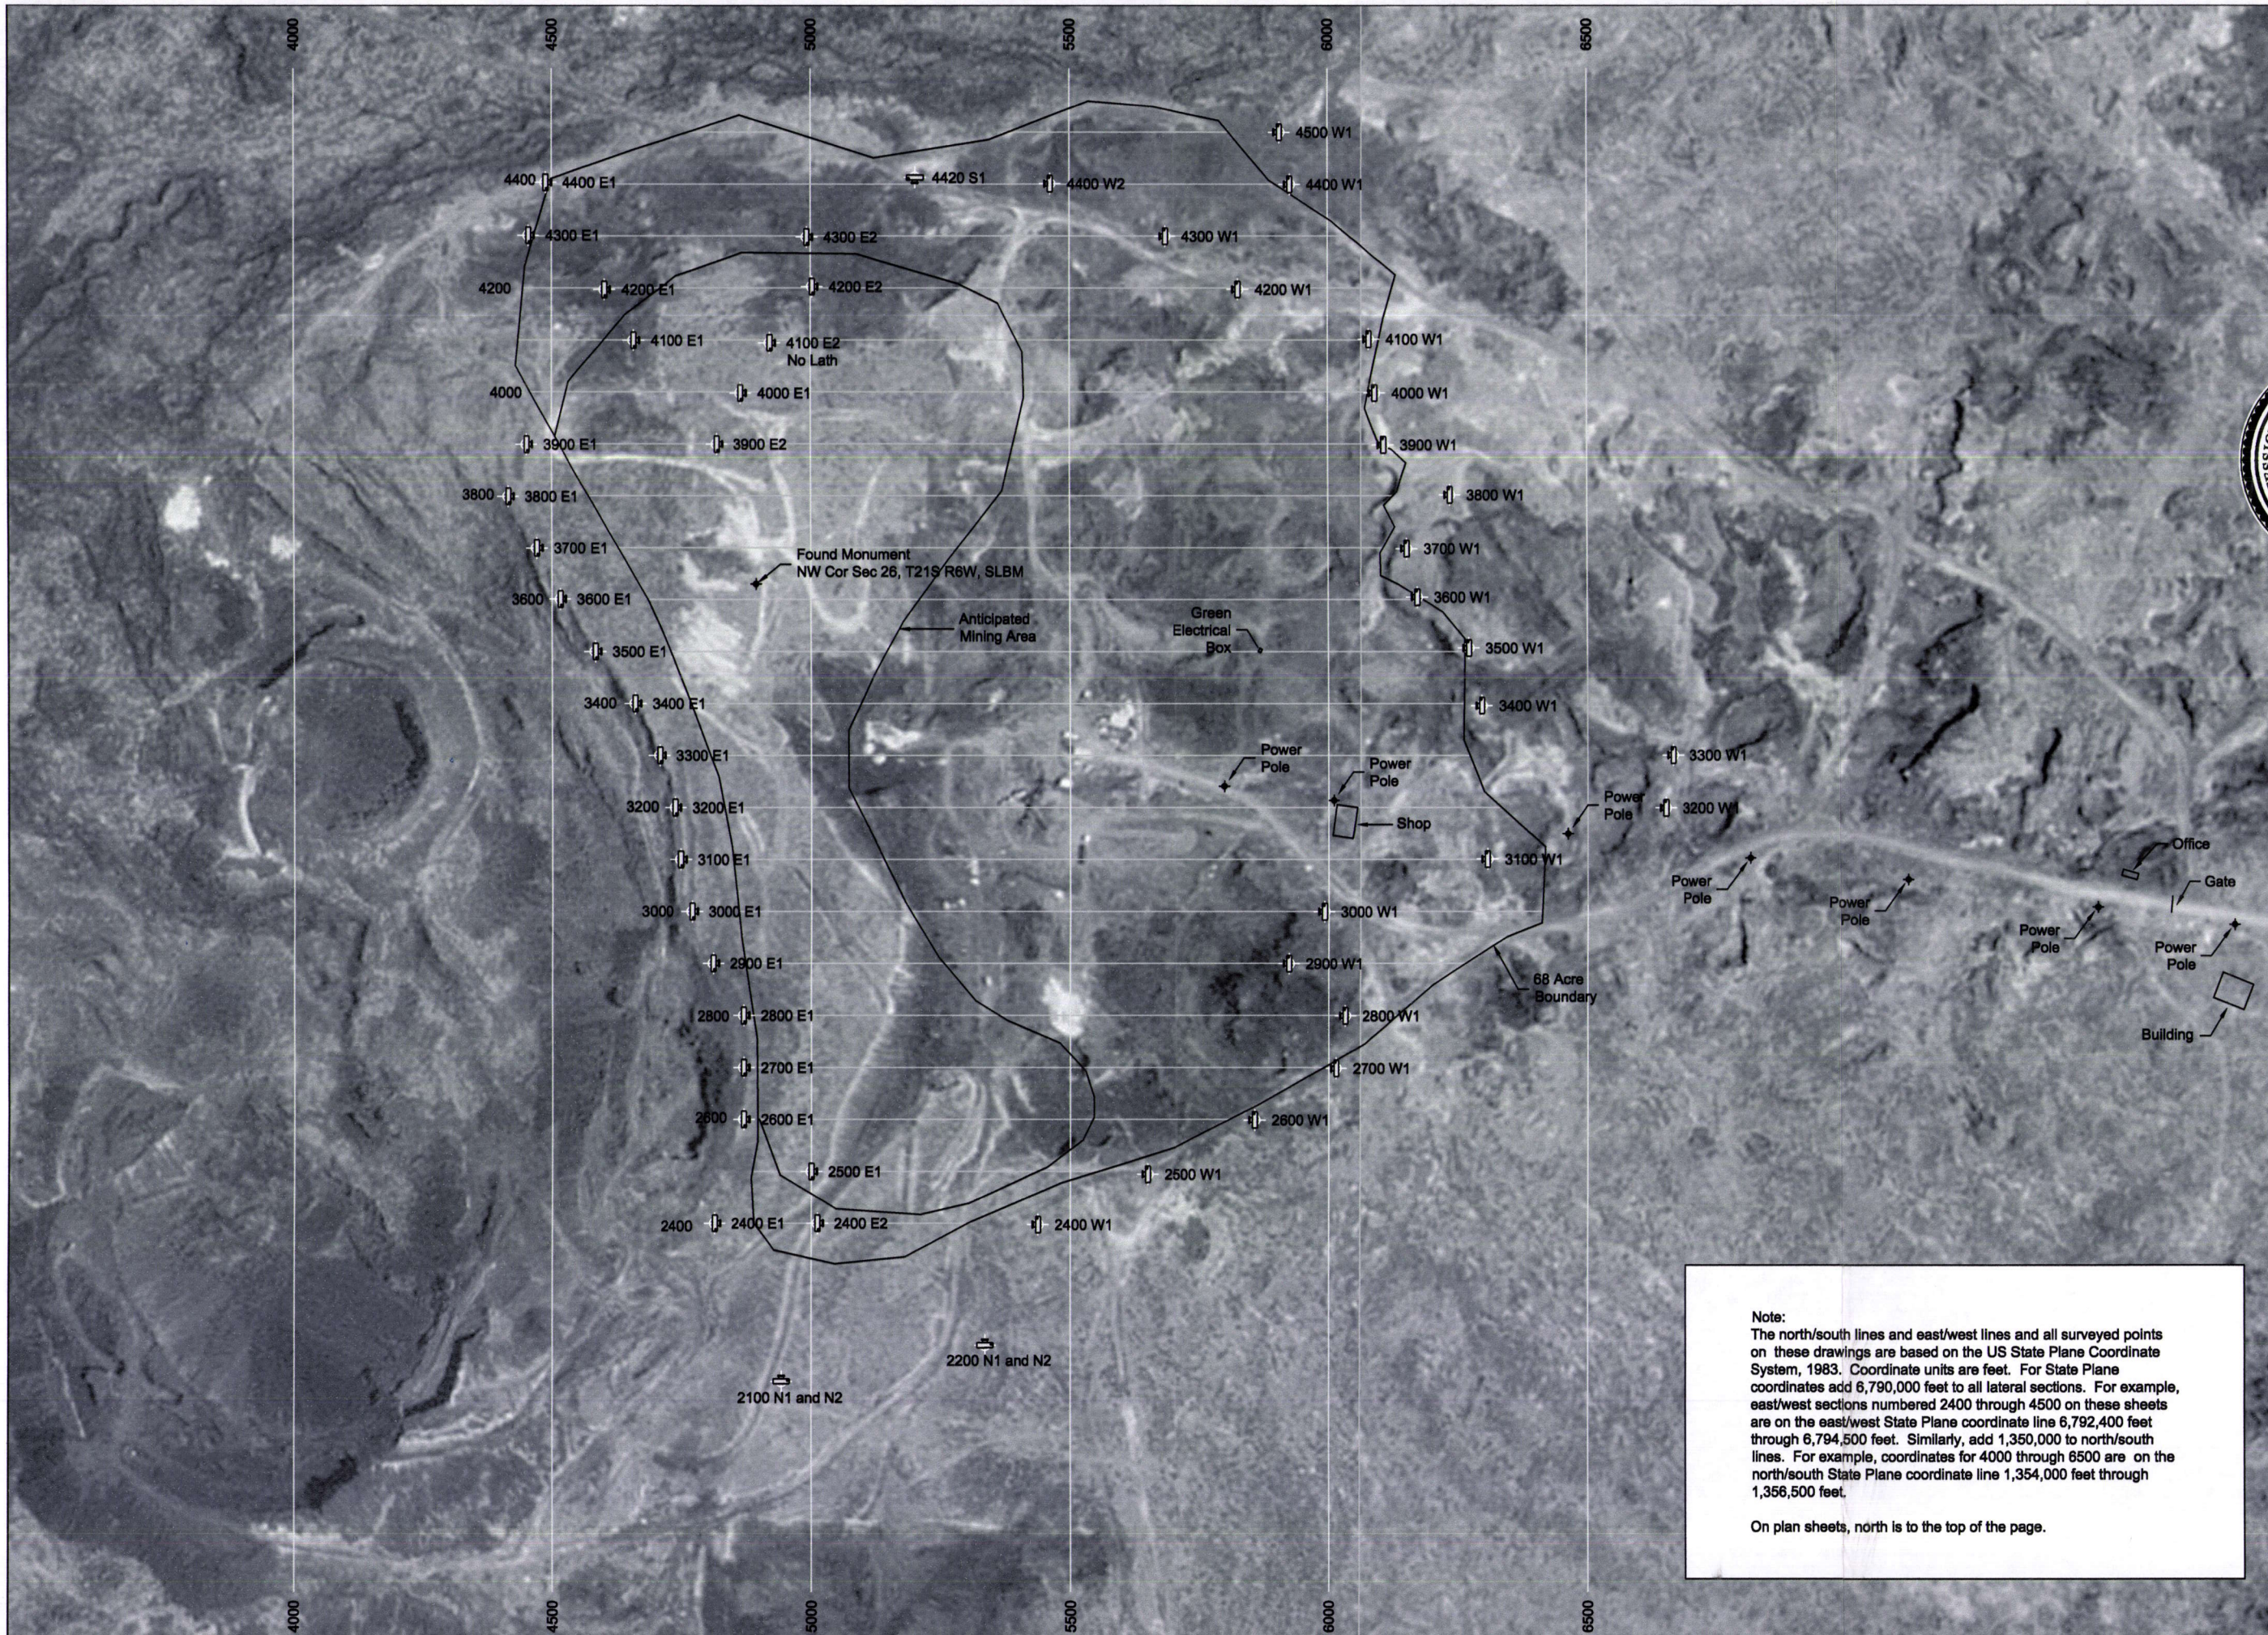
SECTION 1

SITE MAP



Note:
The north/south lines and east/west lines and all surveyed points on these drawings are based on the US State Plane Coordinate System, 1983. Coordinate units are feet. For State Plane coordinates add 6,790,000 feet to all lateral sections. For example, east/west sections numbered 2400 through 4500 on these sheets are on the east/west State Plane coordinate line 6,792,400 feet through 6,794,500 feet. Similarly, add 1,350,000 to north/south lines. For example, coordinates for 4000 through 6500 are on the north/south State Plane coordinate line 1,354,000 feet through 1,356,500 feet.

On plan sheets, north is to the top of the page.
