Re: Sage Point-Dugout Canyon Project
Cultural and Historical Resources

Dear Mr. Smith:

Eureka Energy Company, a wholly owned subsidiary of Pacific Gas and Electric Company, hereby submits a revision to its SMCRA permit application. The enclosed pages should be placed in the "Cultural Resource" section of our application. (Replace those pages in the application which have the same page number as the amended pages.)

We believe that most of Utah's Division of State History's concerns and questions have been answered. Moreover, by the end of April, Eureka plans to provide your office with additional documentation on the historic sites located within the Sage Point-Dugout Canyon Project area. Eureka also hereby submits two copies of the site inventory forms. Under separate cover, two additional copies of the site forms are being submitted to the Regional Director, Denver Region, Office of Surface Mining, U. S. Department of Interior.

Since the original application was submitted pursuant to the Interim Cooperative Agreement between the State of Utah and the Department of Interior, it is still our understanding that DOGM is the point of contact relative to our application.

Please contact me if you should have any questions or additional requests.

Sincerely,

Nicolas Temnikov
