Ryan,

Thanks for getting back to me. I'll keep you posted about future meetings as I think folks down in Carbon and Emery County would be interested to hear about your work. We'll be scheduling a meeting sometime in the 4th quarter so I'll give you a heads up and see if we can't get you down to that neck of the woods later this year.

Thanks,
Steve

Hi Steve,

Here are the links to the methane monitoring publications:

<http://pubs.usgs.gov/sir/2006/5227/>
<http://pubs.usgs.gov/fs/2006/3113/>

I am just one of many that has participated on this project over the years. Regarding the August 7 Caste Dale meeting...I cannot make it that week as I will be getting ready to begin the 2012 methane monitoring cycle the week of August 13th. I wish I could bump the monitoring up a week to accommodate the meeting, but my schedule is booked at this point. How about the meeting later in the year? After October, field work obligations drop off and I will be free.

Ryan

Hi Ryan,

It was pleasure meeting you today down in Vernal. As we discussed, I'm e-mailing you to put August 7th on your radar as a potential opportunity for you to present your soil bed methane research. The meeting will be held in Castle Dale, UT at 1:00 PM at the County Courthouse.

Give me a call next week when you get a chance, and I can give you more details.

Regards,
Steve

p.s. Could you please send me the link to your research paper? I'd like to read that and I didn't write the web-address down during your talk.
