Subject: Kennecott Utah Copper Corporation, Copperton Concentrator Fourth Mill Line Expansion--Notice of Intention to Amend Mining Operations

Dear Mr. Braxton:

Please find attached Kennecott Utah Copper Corporation's (KUC) Notice of Intention to amend mining operations resulting from the proposed Copperton concentrator fourth mill line expansion. The Notice of Intention (NOI) is comprised of the completed form MR-REV (Revised 8/89) and an attachment to the form including appropriate figures, tables, maps and drawings. The NOI document has been bound in a manner that will allow necessary changes to be easily incorporated by insertion or deletion of whole pages.

All information contained in the NOI reflects KUC's current plans with respect to the Copperton concentrator fourth mill line expansion. As engineering details are further developed, some details of the expansion project may change. In this event, KUC will keep the Division informed as such changes occur.

Please feel free to contact me at 569-6555 or Fred Snyder at 569-6640 at any time if you or your staff have any questions or require additional information. KUC looks forward to working with you and your staff on the approval of this important project. Thank you for your attention to this matter.

Sincerely,

Michael H. Gibson
Director, Environmental Affairs
