Bob Postle
Office of Surface Mining
1999 Broadway, Suite 3320
Denver, Colorado 80202-3050

Dear Mr. Postle:

The Division of Oil, Gas and Mining's Coal Regulatory Program is excited to be moving toward electronic permitting. We hope this new process will help improve review time and eliminate or significantly reduce paper copies.

The MRPs are in the process of becoming completely electronic and can be found at <http://linux1.ogm.utah.gov/WebStuff/wwwroot/coal/mrps.php>. Each agency will be able to view the complete MRP as they become available at the above link. A hard copy of amended pages will not be distributed for review or maintenance of the mines.

You will receive notification when there is a change to an electronic MRP. We will be working with both electronic and paper permitting processes until all of the MRPs are in electronic format. In other words, for the mines that have not yet become electronic, you will continue to receive paper copies of the approved changes until they have become electronic.

We hope that you will find electronic permitting easy to use and beneficial to your business processes. If you have any questions, please feel free to call Suzanne Steab, Engineering Technician at (801) 538-5265 or Angela Nance, Sr. Business Analyst, at (801) 538-5264.

Sincerely,

Dana Dean
Associate Director, Mining
