---

Hello Coal Operators,

The Mining Reclamation Plans have been scanned and are now available and are being maintained on our website at the following link:

<http://linux1.ogm.utah.gov/WebStuff/wwwroot/coal/mrps.php>

To select a specific MRP, go to the MRP Name dropdown and select the MRP mine site and then select the set filter button to filter for the files in the specific MRP you selected.

The username and password ogmquest will be needed to access the files.

All of the MRPS have also been "bookmarked" for your convenience. Please take time to peruse your MRP for any discrepancies that may exist.

Because the MRPs are now available to the public and other agencies, it will not be necessary for you to submit numerous clean copies of your applications upon final approval to be disseminated to other agencies, as they will be able to access this information online.

The Division will only request 2 clean copies for final approval, one copy for the hard copy maintained in the Division and one hard copy to be returned to you for insertion into your MRP.

The Submittals Guide, located on the website under Permit, Guidelines will be updated shortly to reflect this change.

Also, to submit applications, only 3 redline strikeout hard copies are required. The Division is in the process of setting up sites for you to upload an electronic copy of your application (in redline strikeout). Once this site is established, of course, you will only need to upload one copy.

The Division will be contacting you for the information needed to set up your site, or you can contact Angela Nance at (801)538-5264 for the necessary information.

Thanks!

Suzanne Steab, Engineering Tech
