Subject: M/035/015 & M/035/011 & M/035/002

Chris,

I am following up on the following outlined action items. My schedule is getting booked, so it is imperative the inspection for the North Tailings and Concentrator are made soon. I have assigned two dates as shown below to perform the inspection. If there is a schedule conflict, please propose another date.

In addition, there was a commitment to work through the mechanics process of the plan update submittals before the June 12, 2008 deadline. We essentially have next week to get plan mechanics worked out. Furthermore, the south tailings (M/035/002) inspection had outlined some requirements and action items. Primarily, the information is needed from Denise Powers. Haven't received anything, in case you think she might have sent the information to the Division. Please ensure at this time, that action is completed. We can work through the others as outlined in the inspection report in the near future.

Inspection Dates: N Tailings June 19 1:00pm (M/035/015)
Concentrator July 1 1:00PM (M/035/011)

Look forward to hearing from you. Please let me know when we can get together to work through the plan mechanics. Are you available next week? Please advise.

Thanks,
Beth

Penny and Pam, please ensure this email is sent to files M/035/015, M/035/011, M/035/002. Thanks

Beth Ericksen
