RE: King #6 Mine Portal
U.S. Fuel Company
Carbon County, Utah
ACT/007/011

Dear Bob:

The Division has reviewed U.S. Fuel Company's response to the stipulations of my July 9, 1979 approval letter.

A commitment is requested that, where possible, in the areas for disposal of the development rock from the portals, the surficial materal be removed, the development rock be deposited and compacted, and the surficial material be used to cover the rock. This would provide additional protection to the hydrologic regime, as this area is to be protected by a sediment pond.

If there are any questions, please contact the Division.

Sincerely,

Ronald W. Daniels
