Subject: Approval of Vent Hole Maintenance, Denison Mines, Pandora and La Sal/Snowball Mines, M0370012 and M0370026, San Juan County, Utah

Dear Mr. Roberts:

The Division approves your proposal to perform maintenance work on vent hole Snowball #5 (included in the La Sal/Snowball reclamation contract), and on vent holes Snowball #6, and an unnamed 7 foot, uncased vent hole in the NE¼ NW¼ of Section 1, Township 29 South, Range 24 East (both included in the Pandora reclamation contract).

You did not propose to increase the size of any of the pads, so all work must be done within the existing disturbed area. If you find it necessary to drill new holes, the existing holes must be reclaimed within six months of completion of the new holes. The Division is willing to allow new holes to be drilled without increasing the surety because the reclamation contracts include one hole associated with La Sal/Snowball that was never drilled and two associated with Pandora that have been completely reclaimed.

Thank you for your cooperation. If you have questions about this approval, please call me at 801-538-5258 or Paul Baker at 801-538-5261.

Sincerely,

Susan M. White
