RE: La Sal Mine Complex Plan of Operations Modification Completeness Determination

Dear Ms. Woodward:

Denison Mines (USA) Corporation's La Sal Mine Complex, Plan of Operations Modification for mining activities near La Sal, Utah, was received in this office in December 2009. The Bureau of Land Management reviewed the modification in October 2010, and at that time submitted to you our comments and concerns regarding the plan. On November 29, 2010, the BLM received a revision of the Plan of Operations Modification and we assigned this revised Plan of Operations modification case file number UTU-88241. This case file number combines the mine plan for the Pandora Mine (case file UTU-69800) and the mine plan for the La Sal, Snowball and Beaver Shaft Mines (case file UTU-69812).

As required under the surface management regulations at 43 CFR 3809.432(a), BLM has reviewed the revised Plan Modification to determine if it meets the content requirements at 43 CFR 3809.401 through CFR 3809.420. Based on this review, we have determined that the mine plan is complete and ready for public comment, and we can move forward with the environmental assessment.

RECEIVED
DEC 20 2010
DIV. OF OIL, GAS & MINING

If you have any questions, please contact Becky Doolittle at (435) 259-2141.

Sincerely,

/s/ Jeffrey R. Smith
