DEPARTMENT OF NATURAL RESOURCES
DIVISION OF OIL, GAS AND MINING

355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203
801-538-5340

September 20, 1988

Mr. Robert H. Hagen, Director
Office of Surface Mining
Suite 310, Silver Avenue, SW
Albuquerque, New Mexico 87102

Dear Mr. Hagen:

Re: TDN X-88-2-116-2, TD3, U.S. Fuel Company, Hiawatha Complex, ACT/007/011, Folder #5, Carbon County, Utah

Your correspondence of September 12, 1988 requested clarification of the Division's response to the above cited TDN, specifically items #1 of 3 and #2 of 3.

For #1 of 3, the Division's response states: "In the July 1 letter, U. S. Fuel was given until September 30, 1988 to submit maps and plans for subsidence monitoring for both fee and federal lands". Approval by the Division will follow the submission of plans noted in the response to this part of the TDN. As noted in the Division's response to this TDN, your agent simply cited an issue that had previously been identified by the Division (and the course of remedial action established). Issuance of a TDN establishes a moote point and in this case and I would recommend withdrawal of #1 of 3.

For #2 of 3, the Division has asked for submission of designs for diversions by November 16, 1988. In accord with the ninety day reasonable time policy.

an equal opportunity employer

Both courses of action enumerated above are amplified in DOGM's letter to U. S. Fuel dated August 31, 1988, which was copied to your attention.

Sincerely,

Lowell P. Braxton
