CHRONOLOGY
HENEFER CLAY PITS
Summit County, Utah

ACT/043/002

November 11, 1976	File Memo documents site inspection of 10/28/76.
November 11, 1976	Letter to Interstate requesting "filing" of mine operation.
February 4, 1977	MR-1 NOI and MR-2, Mining and Reclamation Plan, received by DOGM.
February 22, 1977	File memo documenting 2/10/77 site inspection. Operation consists of East Pit and West Pit. Operations are on leased lands. Lease expires in 1978. Mine operations to be completed in 1978. Pit walls to be reclaimed to 45° slope. The stockpiles will be drawn from for 5-10 years after the mine area is reclaimed. The ore pads will be reclaimed at that time, along with any useless roads.
March 18, 1977	Letter to Interstate Brick with comments and suggestions regarding the operation. Mining is to cease in December, 1978 and clay is to be removed from the stockpile for 5-10 years. A reclamation schedule for the present operation is requested. Stability of the fill material needs to be addressed. Testing growth mediums is requested. Fertilizer, a seed mix, grazing prevention during revegetation and reseeding are recommended.
April 5, 1977	Addendum to reclamation plan for Henefer received by the Division. Addendum agrees to recommendations/requests made in the 3/18/77 Division letter.
May 2, 1977	Letter issuing tentative approval for the Henefer Mining and Reclamation Plan (also Big Cottonwood and Smokey Joe Operations).
May 27, 1977	Order to Show Cause sent to several newspapers (tentative approval).
August 25, 1977	Signed Reclamation Contracts for the Smokey Joe and Big Cottonwood Mines sent to operator. Surety estimate of $15,051 for the Henefer Clay mine was approved by the Board. A completed Reclamation Contract or bond for this amount is requested.

ACT/043/002

November 3, 1977	Division letter to the operator stating the operation has completed requirements for the Mined Land Reclamation Act.
November 29, 1977	Code of Solid Waste Disposal Regulations received from Division of Health. Received copy of letter from the Summit County Commission with a copy of application for approval of Summit County Landfill sites. Also received copy of letter approving a solid waste disposal site near Henefer.
December 8, 1977	File memo stating the pit is being used as a landfill as of 11/17/77. The operation is permitted with State Health, but this post mining land use has not been cleared by the Division.
December 8, 1977	Division letter to IBC requesting clarification and revision of the reclamation plan with respect to the landfill use.
December 14, 1977	Division request to IBC for annual report.
January 5, 1978	Division request to IBC for annual report.
January 24, 1978	Received annual report and agreement drawn up between IBC, Summit County and the Division. The Division's signature is lacking. Report states 23,013 tons of clay removed from stockpile.
(? - Date Unknown)	Copy of agreement between IBC, Summit County, and the Division. Signed by the Division on January 25, 1978.
January 30, 1979	Received annual report from IBC for 1978. Clay was removed from the stockpile.
January 31, 1980	Received annual report for 1979 from IBC, 6.627 tons hauled.
January 2, 1981	Division letter requesting annual report from IBC.

ACT/043/002

March 10, 1982	Division request for annual report.
(? - Date Unknown)	Annual report for 1982. States Summit County is responsible for reclamation of the pit. No materials moved.
(? - Date Unknown)	Copy of agreement between IBC, Summit County, and the Division. Signed by the Division on January 25, 1978.
(? - Date Unknown)	Annual report for 1983 received.
January 8, 1985	Request for annual report.
February 13, 1985	Annual report for 1984 received. Stated Summit County should probably be filing the annual report for the Henefer site.
February 25, 1985	Division letter acknowledging receipt of annual reports.
February 20, 1986	Annual report for 1985 received. Copy of Summit County agreements attached. Report states no mining since 1977.
June 17, 1986	Received letter from IBC. Copies of the agreements and other information regarding the Henefer site is provided.
October 10, 1986	Change in file status approval form. Requested by Frank Filas and signed by Lowell Braxton, 10/24/86. The clay pit was converted to a landfill in the fall of 1977. Summit County is responsible for the reclamation.

S/043/011	**Henefer Stockpile - Interstate Brick**
June 9, 1989	Received SMO-NOI from Interstate Brick for Henefer Stockpiles.
July 10, 1989	Division letter to IBC stating the SMO-NOI received 6/9/89 is complete. This notice is valid for the removal of the existing stockpiled material only.
January 23, 1990	Minerals tracking update - Pre-law site. Hauling stockpile material only. Operator was going to reactivate in summer of 1989, but did not as of 1/18/90. **(This entry in the tracking system (January 23, 1990) was made in error because of a mixup in the data entry between this mine (S/043/011 and Interpace Industries S/043/010). A letter received from Interpace Industries initiated the search for the error.**
S/043/010	**Henefer Mine - Interpace Industries**
May 3, 1989	SMO-NOI filed by Interpace Industries for the Henefer Mine, S/043/010. Plan is to remove clay from waste piles.
May 18, 1989	Letter to Interpace discussing onsite meeting held 5/10/89. A copy of the new rules and MR-SMO is enclosed.
May 31, 1989	Division letter to Interpace stating SMO-NOI is complete.
January 18, 1990	Letter from Interpace. In June 1989, they met with Scott Johnson on site to discuss the operation. Abut a week later they negotiated an agreement with Interstate Brick Company to purchase this type of clay from their stockpiles. They did not re-open the Henefer Pit and wished to removed their SMO application.
January 23, 1990	Minerals tracking update. SMO-NOI was approved but operator did not mine it. This is a pre-law site.

March 5, 1991	Letter to Interpace stating this mine file will be removed from our files.
