Re: Permit Renewal Deficiencies, U. S. Fuel Company, Hiawatha Mines Complex, ACT/007/011

Dear Daron:

We are continuing to have difficulty addressing our permit deficiencies. Lab results from field work conducted by our consultants earlier this month have not yet been returned. It appears we will not be able to meet the August 31 deadline. Therefore, I am requesting an extension until September 30 so as to have time to evaluate lab results, document findings and assemble 13 copies of the permit for shipment to your office.

Sincerely,

Robert Eccli
