Thank you Alysen. The drums represent a deletarious materials hazard that are in violation under R647-4-107. I will agree not to write up the violation on the condition that they be removed within 30 days of the date of this email.

Also, there is quite a bit of scrap metal that I see on the site. This should be sent to a recycling facility. Denise et. al, please let's work together to get this bone yard area cleaned up. It is in everybody's best interest to do so.

Thank you.

April

Hi April,

I agree after seeing the pictures that those barrels, and the soil underneath, should be removed to an appropriate facility. I have personally had good dealings with Clean Harbor, and will encourage TSHII to come up with a removal plan. I would be available to work with TSHII and Clean Harbor, or another qualified entity of TSHII's choosing, to help oversee the removal.

Thanks,

Alysen Swenson

Please let me know when this task gets completed. As I mentioned on the call, I will need to conduct a follow-up inspection.

April
